Castle Shannon Park and Ride to undergo repaving project

FOR IMMEDIATE RELEASE (April 3, 2025) – A portion of the Castle Shannon Park and Ride will be closed for about six months starting April 7 for repaving and other repairs.

In addition to repaving the lot, crews will be installing new lighting and additional amenities when they close the lot located on Mt. Lebanon Boulevard near the Castle Shannon light rail station.

The $2.9 million capital project is expected to be completed in October.

A. Merante Contracting Inc. will perform the work in three phases, keeping at least 200 parking spaces available and the station platform open throughout construction. The lot has a total of 507 parking spaces.

Riders with questions are encouraged to contact Customer Service by calling 412-442-2000 on Twitter @PghTransitCare or via live chat at www.ridePRT.org.
